

Sponsors' Sessions

Tuesday, October 4th, 10:30 - 12:30

Sponsors' Session I (10:30 - 11:30)

Imagine Optic

"New adaptive optics strategy to optimize the focalization spot of ultra intense laser"

Xavier Levecq

Newport Spectra-Physics

"Recent progress in ultrafast laser systems for high-field and attosecond science"

Catalin Neacsu

Thales Optronique

"Thales new developments in mid-infrared lasers"

Christophe Simon-Boisson

Amplitude Technologies

"Latest development on ultra-intense lasers at Amplitude Technologies"

Franck Falcoz

Sponsors' Session II (11:30 - 12:30)

Fastlite

"Few-cycle, CEP-stable, MIR OPCPA front-end delivering 3W at 100 kHz"

Nicolas Forget

Coherent

"Improving reliability, compliance and lifetime of ultrafast lasers with the adoption of industrial testing protocols"

Marco Arrigoni

Japan Laser Corporation

"High power high repetition rate diode-pumped ultrafast laser"

Jun Sasaki

TRUMPF Scientific Lasers

"High power ultrafast thin-disk amplifiers"

Thomas Metzger
